# IEEE English for Technical Professionals™

An online learning resource for non-native English speaking technical professionals

## Develop technical communication skills necessary for reading, listening, speaking, and writing in English

IEEE English for Technical Professionals is an 18-hour online learning program that uses real-life interactive scenarios to provide non-native English speakers with a working knowledge of English techniques and vocabulary that is essential for today's technical workplace. Designed to help learners master essential English skills, this mobile responsive program is ideal for both working professionals as well as students who are preparing to enter the field.

Lessons include techniques for English reading, listening, speaking, and writing in many topics, such as:

- Working with business and company documents
- Understanding engineering concepts and complexity
- Using white papers
- Making recommendations
- Interpreting data
- Ethical persuasion for technical projects
- Reading proposals and requests for proposals
- Working with unfamiliar technical terms, jargon, and other details
- Strengthening written positions based on technical literature

## Quick Facts

### IEEE English for Technical Professionals Quick Facts

Develop English communication skills through real-life business scenarios essential to daily success as an engineer or technical professional at work and when studying technical concepts at the university level

Lessons developed and peer reviewed by experts in their fields

Certificates awarded upon successful completion of each lesson, as well as the full program

Delivered via IEEE Xplore®, the IEEE Learning Network, or SCORM files

Interactive knowledge checks and quizzes along the way help guide and improve skill development

New enhancement includes interactive speech practice

Organizational pricing available: pay one price for perpetual access for all users in an organization.

**For a custom quote, contact an IEEE Sales Representative.**

# IEEE English for Technical Professionals™

An online learning resource for non-native English speaking technical professionals

## The Basics

Reading company documents, speaking appropriately with colleagues, developing relationships

## Business Documents, Questions, and the Technical Pursuit

Interpreting business documents, technical language, understanding and asking questions

## Engineering Concepts and Complexity

Understanding engineering concepts, acronyms, adjective clauses

## The Future Tense for Technical Work

Communicating in the future tense, using contractions appropriately

## White Papers; Modifiers and Qualifiers

Describing technical components, understanding qualifiers in lectures, expanding sentences with qualifying phrases, order of adjectives

## Making Recommendations; Interpreting Data; Ethical Persuasion for Technical Projects

Recognizing concession and redirection expressions, phrases of data integration, integrating data

## Cause and Effect; Calls for Proposals

Cause and effect statements, reading proposals and calls for proposals, basic punctuation formulas

## Technical Complexity in Communication

Using technical content, working with unfamiliar technical terms and details, restatements and paraphrases, units of measurement

## Numbers, Plain English, Jargon, and Technical Terms

Working with numbers; identifying technical terms, jargon, and buzzwords; finding solutions for complex writing using plain English; using style guides

## Active and Passive Structures

Using active and passive voice constructions as needed for specific technical contexts and communication

## Organization Needs; Seeing the Big Picture; Negotiating

Appropriate terminology and tone used for public messaging, workplace social hierarchy, and management; interpreting organizational needs, expectations and benchmarks in written materials when project planning

## Audience Needs and Assessment; Standards Versus White Papers; Objectivity

Communicating effectively in group meetings and with specific audiences, recognizing speaker's intent, strengthening written positions, formatting data/reference tables, differences between standards and white papers

## Communicating within Expected Genres, Identifying Trustworthy Sources or Bias in Technical Work

Differences in informational patterns in work and research documents, vetting sources, negotiating between perspectives, using plain language when possible, recognizing speaker intentions/priorities on conference calls, techniques to navigate gaps of cultural miscommunication

## A Review of Major Course Takeaways

Compilation of important reading, listening, writing, and speaking strategies with supporting outside resources

## NITT Central Library has access credential for this E-Learning Course

## Convenient Online Learning

Enjoy the flexibility of online access to the world's highest quality, peer-reviewed technical learning content in engineering and technology, delivered in the way that works best for your organization.

## IEEE Learning Network (ILN)

- Enhanced topic browse and search, personalized LMS functionality, and learning navigation features
- Reports available to track course usage and performance
- Print CEU and PDH certificates upon successful course completion

## IEEE Xplore Digital Library

- Streamlined access to courses using existing IEEE Xplore credentials
- Discover more eLearning content of interest through an easy-to-use browse experience, with filtering by topic

## Use Your Own Learning Management System

- SCORM-compliant files delivered for loading on your organization's LMS
- Use your existing learning reporting system to track course usage and performance
