

# Peer supporters 2015

You have a lot to congratulate yourself for. Working hard and slogging for four or more long years has rewarded you a place in one of the most prestigious institutes in India, that is the National Institute of Technology, Trichy. It may seem like three hours of answering questions has finally resulted in this, but now is when you will have lots to ask of your own.

Peer support occurs when people provide knowledge, experience, emotional, social or practical help to each other. –Wikipedia

NITT, has put together a team of its students to help its upcoming first years. We, the Peer Supporters, comprise of fresh second years, and are ready to provide able guidance and support to anyone who requires it. We will answer your queries regarding admission procedures, academics, orientation programme and student life in NITT. Having been in your shoes the same time last year, we're sure that we understand you and will help you smoothly sail through your admission process and settling into the campus. The transition from being a school student to becoming part of a professional college can be daunting. Trust us, you have nothing to worry about. After all, supporting our peers is what we're here for!

## SHUBHAM PATEL

Hi! I'm Shubham Patel. I am from Bharuch, in Gujarat and I am a third year Chemical Engineering student here in NITT. I am the overall coordinator of Orientation Program 2015. I know it's a little far from home but it's still great to be here. It was quite difficult for me in the beginning but luckily, there was someone helping me along the way. The most amazing part about this college is that you get to make friends with people from all over India and sometimes from other countries too. There are some great places around here and you get taste of different cultures from all over the country. I enjoy classical singing and I have been a state level player in volleyball. If you get a chance to come to NIT Trichy, you should definitely grab the opportunity with both hands.

## SURAJ

Hey! My name is Suraj and I'm from the Production Engineering department. I hail from DPS Bokaro, Jharkhand. The life at NITT has been super cool for me. It is an amazing place where getting a B.Tech degree isn't the only important thing – it gives you a chance to explore your interests in ways that are within your reach. I enjoy robotics, public speaking, and photography. I can speak Hindi, English, Bhojpuri and various other regional north Indian languages fluently. I have been a part of the Pragyan Aaveg Organising Committee and Festember Workshops and Informals Team, besides being an NSS executive member, mess representative and the Class Representative of my department. For me, the journey at NITT began with a bunch of about 961 students, from various backgrounds. The orientation programme is what helped us come together and form this amazing batch. I hereby welcome you to one of the best colleges of this country. Whenever in dilemma, feel free to disturb me!

## A SACHIN

Hey there :)

I'm Sachin and I'm a 2nd year Computer Science and Engineering undergraduate(Go Compsci!). I'm a Malayalee and my hometown is Trivandrum. I've lived all my life in Kerala and passed out from Kendriya Vidyalaya Pangode in the spring of 2014. I'm really passionate about writing, social causes, music, movies, anime and I code. I play football, cricket and badminton and enjoy debating, quizzing and organising events. I've been a part of the Aaveg-OC, Nittfest-OC, Festember Workshops and Informals team and the Orientation core.

Anyhow, enough about me, a huge welcome to all you kids out there planning to come to Nit-Trichy. If you're weighing your options and figuring out which college to go for, don't worry I've been there and done that, so I can tell you that you will not regret coming to NIT-Trichy. Not one bit. You'll have the best of times here interacting with people from all across India and abroad. And this place is crawling with clubs, events, fests and workshops that you'll never know what hit you. You can express your heart out here and discover yourself anew given all the wide variety of outlets we have for talent here. And what's more we've put together a little party of sorts for those who do join eventually, A.K.A The orientation programme(So Yay!).

So feel free to ring me up, inquire about stuff and sort out any misunderstandings you might have. Oh and I can speak Hindi and Malayalam along with English, if you prefer that.

You can reach me at,  
Mobile Number: +919629475352  
Email: ediblepeople@gmail.com

Arrivederci. A Presto!

## STUTEE NANDA

Hello!! I am Stutee Nanda, currently pursuing Metallurgical and Materials Engineering at NIT Trichy. I belong to Odisha and have lived in Chennai, Ahmedabad, Kota, so it suffices to say that my life has been a lot about moving from one place to another, meeting new people, adjusting in ever-changing environments. I can speak English, Hindi, Oriya. I was a part of AAVEG OC and now a member of FESTEMBER PUBLICITY TEAM. Being the Meta department CR for two semesters has given me an apt knowledge of how each and everything goes about in NITT .It has been one such place which has given me a platform to excel in various fields and helped me improve my leadership qualities. I am a violinist and one who loves socializing. Welcome to those who have made it to the premier institute of the country and I wish you all GOOD LUCK for the journey ahead. I would be glad to help you out regarding any queries about NITT.

Email: rafastutee@gmail.com

## SUHITH RAJESH

I'm Suhith and I study Computer Science and Engineering here at NIT Trichy. I am from Chennai, Tamil Nadu. I enjoy music, coding, and movies. My first year of college has been an amazing experience. Studying here at one of the best institutes in the country, with cool people from all over India is something you cannot miss. I've made lots of friends here at NIT, Trichy. I speak English, Tamil and a bit of French. I know that the coming batch of juniors is going to be amazing, and I am excited to help you out.

## NISHIT BINDRA

Hi! I'm Nishit Bindra, and I'm currently pursuing my bachelor's degree in Instrumentation and Control Engg., obviously at NITT. I don't know where you'd say I belonged to - my early years were in Delhi and I live in Mumbai as of now. Mumbai was a transformation for me from Delhi, for it has a very different culture, and so is Trichy. However cosmopolitan we call it, NIT does hold on to its roots. Joining NITT was an eye-opener for me. I learned so many things out of meeting so many people of differing backgrounds and participating in college activities, all despite knowing only English, Hindi and part Marathi. On a bigger picture, I wouldn't say language was ever a problem for me. Other than my awesome first year at NIT, I enjoy books, AOL and learning new skills. I'm already learning German and hope to learn at least one instrument in the next few years. College is the last time that you get in your life to cultivate extracurriculars and I intend to make the most of it. Here at NIT, every and any talent of yours, even the ones you do not know about yet, will flourish.

Whenever in doubt about anything at all, do not hesitate and reach me at 9629471950. If I'm busy, I'll get back to you ASAP.

You can also contact me at [nishitbindra@gmail.com](mailto:nishitbindra@gmail.com)

Congratulations on having made it to NIT.

## AISHWARYA VASUDEVAN

Hi! I'm Aishwaryaa Vasudevan from 2nd Year ECE Department. I'm from Chennai but have done my schooling in Kuwait. I can speak English, Tamil and Hindi fluently. In NITT, I have been a part of the Organising committee of AAVEG and am also a part of the Festember Marketing Team. Other than that, I love to read novels and I love to socialize. I know the thought of entering college and beginning a new life without your parents and family to help you out with anything and everything is scary, but once you do begin the journey, you will not want to look back. For me, coming from a different country altogether, adjusting to the new environment should have been an issue, but trust me when I say that it wasn't. The people here are very nice and this place will soon become your home away from your homes. Feel free to contact me for any help!

Email: [Aishwaryaa1706@gmail.com](mailto:Aishwaryaa1706@gmail.com)

Phone Number: +918754847585 / +96565995484

## MOHINI RAO

Myself Mohini from Chemical Department, and I welcome all my juniors to this place which makes a perfect person for leading life ahead. I'm a Telugu but born and brought up in Chhattisgarh thus I speak Hindi. Being a Narayana product I liked this place as at least you need not to sit at one place. I am a part of Pixelbug Club the official club of NITT. Its platform which made me know about my talent. And such other 23 clubs of NITT makes you come up in the life with better management skills which is very important in life. Being a girl from north( as I'm not a complete Telugu girl) it was really not easy to cope up with the culture but after coming here it made me know how to adapt a different culture and sustain in it which is really important. It's really a good place and everything is possible when you get a same set of people struggling for that and doing it all together.... So in all I would say it's really a good experience being here and exploring yourself.

You can contact me anytime. I'm here to help u out..

And here is my contact 09424282414

g.mohini17@gmail.com

## SHASHANK KUMAR M

Heya! I'm Sashank Kumar.M currently in Second year , Electronics and communication department here at NIT Trichy . I'm from Hyderabad in Telangana . I can speak Telugu , English and a fairsome amount of Hindi . Well, This campus till now has been awesome, may it be hanging out with your new friends, or working for your department , enjoying fests and being a part of it backstage is always nice . It feels good to see something that you've worked out for come out so good. And yeah, this campus has everything that you need. It brings out the best of you , it's you who need to choose where you head , This college is a Wholesome package of fun n entertainment combined with quality education along with clubs bringing out the hidden talent amongst you , come feel yourself living here, It's time you feel freshened up. You cleared JEE MAIN, the toughest examination so called, Finally welcome to Nit Trichy . Feel free to ring me up for any help!

## ANANTHI

Hi. My name is Ananthi Renganathan from Neyveli. I'm presently doing my second year of Mechanical Engineering, B Tech in NIT Trichy. I speak Tamil and English fluently and can understand Telugu. My first year in NITT got over very quickly but not without memories and friends for the rest of my life. Instead of having parents around all the time I was suddenly completely on my own, with a lot of freedom and a whole new world of opportunities to embrace. A large part of my time in college involved exploring new subjects, finding friends and meeting people from different backgrounds. The orientation program with its bridge courses and trips helped me get familiar with the campus and a lot of new friends. In NITT there are lots of fests to showcase our talents both by participating in the events and also by organising and managing the events. I'm also a NSS member and like to badminton. NITT has no shortage of clubs. Both arts and techie clubs are there to kindle our imagination and innovations. Sports centre is also there for us to develop our talent in sport of our choice and various sports teams to help us. Within a few weeks I was adapted to my new environment which soon became my home for my college life. Academics went steady with the help of several faculties and friends. I'm looking forward to my new college year.

## SNIGDHA

Hi!! I'm Snigdha Swarupa Dalai, and I am currently pursuing my B.Tech in Electrical and electronics engineering, second year here in NIT Trichy. I'm from Odisha and did my schooling there as well. Needless to say, NIT Trichy is the topmost NIT and one of the very good educational institutions of India beating down so many IIT's out there with all its facilities, job placements, good faculty members, brainy kids, fun, enjoyment and what not. If you get to come to this institute then you must come here. If you are a North Indian and think that language is would be a barrier, then it's not an issue at all because I am in the same boat as yours and all I know are English, Hindi and Odia and assure you that if you are good enough at English, then you are going to have a really fun time here in the upcoming 4 years. I as a recent first year pass-out, had a wonderful experience in the college. As far as my hobbies are concerned, I like playing badminton, chess, music, art and most importantly making new friends. My passion is to build robots and stuff and I really look forward to get into one of the tech clubs which are the gems of the institute. I welcome you to NITT, the pride of India, a huge campus with cool stuffs though it's a hot place itself. Feel free to contact me if you have any queries.

## SIDDHARTH NANDHAN

Hello! I'm Siddharth Nandhan doing my second year in Electrical and Electronics engineering. I am from a town called Udumalpet in Tamil Nadu. I can speak Tamil and English fluently. I am a part of Nakshatra, the astronomy and science club and the PR and hospitality team of Festember, the cultural fest of NIT Trichy. Transition from school to college is an important and interesting phase and we are here to help you with that. Come and you'll get to mingle with people from all over the country. Always feel free to contact me. I'll be there to help you...

Email: [siddharthnandhanp@gmail.com](mailto:siddharthnandhanp@gmail.com)

Phone: 9865331361

## SHRIYA NARAYAN

Hello. I'm Shriya and I'm my second year of Instrumentation and Control Engineering. I'm from Chennai so adapting to Trichy wasn't as hard for me as a lot of my batchmates. I can speak English, Tamil and some level of Hindi. I've been a part of the Aaveg, NITTFEST and Festember teams and for me, the fests here have been the defining portions of my first year. Getting adjusted to mess food, cycling, the heat and hectic schedules is definitely going to be challenging, but with time everyone falls in love with this campus. And hopefully, we'll help make that easier for you all. Welcome to NITT.

You may reach me at 9941905227.

## VARSHINI BASKAR

Hi!

I'm Varshini Baskar and I am doing my B Tech degree at NIT Trichy, currently in my second year of Civil Engineering. Firstly, congratulations on making into NITT.

To tell more about myself, I did my primary schooling in Hosur, near Bangalore after which I settled in Trichy. I have changed 5 schools and hence I learned to adapt quickly to new surroundings. I can fluently speak Tamil and English. NIT TRICHY is one of the best colleges in India as you'll obviously know. Not just that, there are people from so many different places and countries here with varied mindsets. In my case, it didn't take much time for us to get together and mingle. And I assure you it will be the same in your case. Academics here went smoothly as we have really helpful and dedicated faculty here. Not only academics, We also slowly started learning about the different clubs here and started to pick clubs best suited for us. There are so many opportunities here and everyone will find something interesting and hence will realise their true potential and become better people. There are so many fests to help students showcase their talents. Don't be scared about coming out of your shell as that'll benefit you the most here.

Congratulations again. In case of any queries, feel free to contact me at 9043846358.

Email id : [varshinibaskar150297@gmail.com](mailto:varshinibaskar150297@gmail.com)

## KAVYA

Hey My name is Kavya Bhavaraju, and I've just entered my second year Production Engineering. I'm from Chennai, and I've lived there practically my whole life. I speak English and Tamil fluently, and Telugu to a good extent.

I remember the feeling that followed the high of getting into such a great college. Even the thought of leaving home to stay in a hostel was intimidating. And here's where I have to thank my mentor, for patiently picking up all of my calls and responding to all of my hundreds of messages. She was a huge source of support for me during that period.

As I got settled in here, I found the people that I was going to be friends with for the rest of my life. After that, things got easy. Club inductions started and with that, came a sense of purpose and belonging. Every one of us found our calling. By the end of our first year, we were all a part of one family. This place became a home away from home for us, and these NITTians became our second family. They stick by us through our every mood and phase, they love us no matter what, support us, care for us and, of course, irritate us, just like a sibling would.

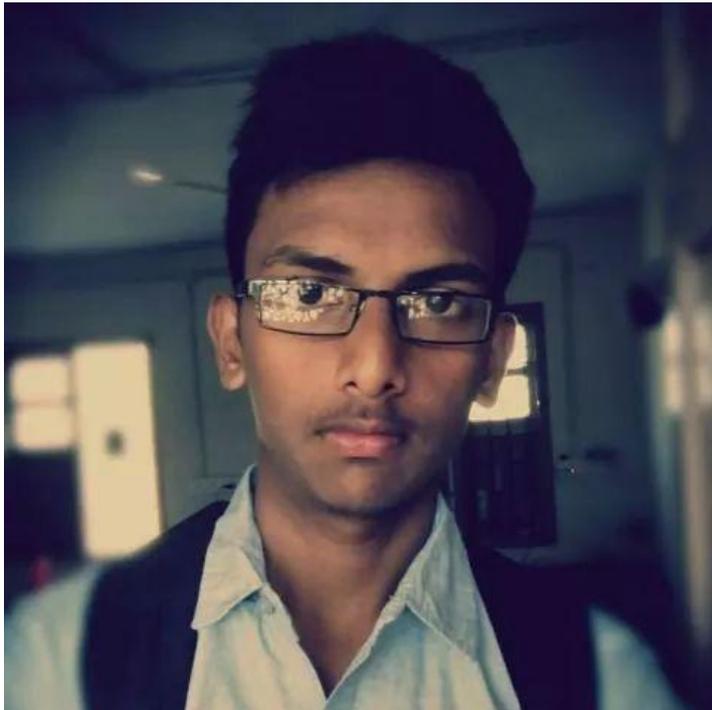

The best thing about this institute is the way it allows us to find the perfect balance between academics and extra- and co-curriculars.

I have been part of an amazing year that went by so fast, and cannot wait to be a part of the next three.

With this, we welcome the new additions to our family and hope that your time here is everything that you want it to be.

## VARUN

Hi! I am Varun Aamooru, 2nd year in Mechanical Engineering. I am from Khammam, Telangana. All my schooling took place in Khammam. I can speak Telugu, English and Hindi fluently. After I cleared my boards and JEE, I was very confused to choose a college for my further studies. Of all, NIT Trichy seemed to be the best college for me and I never regretted the decision I took to join it. I was a bit sceptical when I first came to this place but when the days passed on, I felt it as home. The days pass very quickly as we take part in workshops, NSS activities. We have lots of fun during fests, hangouts, treats which happens round the year. NIT Trichy offers a variety of academic skills with emphasis on extra-curricular activities. If you plan to come to this college, trust me you can have a beautiful learning experience filled with fun. Feel free to contact me.

Email: [varun.aamooru@gmail.com](mailto:varun.aamooru@gmail.com)

Contact: 09676578378, 08220722199.

## SHRUTHI AKSHAYA

Hello!! I'm Akshaya from second year Computer Science and Engineering, second year. Being Cultural Secretary in school and the CSE CR for two semesters have given me enough experience, sense of responsibility and contacts. An active part of teams at college fests, I debate and dance, code and run. I'm jovial and fun loving, and mingle astonishingly fast with Potterheads. I like taking up projects and am always on my feet. I can speak Tamil, Telugu with English, and I can stumble around with a decent amount of Hindi.

NITT has been a dream come true for me and I couldn't have asked for a more comfortable place. This place which buzzes with energy and opportunity is home away from home.

You'll stumble around at first with your first laundry heap, your first cash withdrawal, the first time mess anna/Akka say you can take only one Gulab Jamun and the first one that you steal But then you'll learn to live and love this place. It's your sudden realisation that you're free to do whatever you please, and sometimes the price that it comes with.

Can't wait to meet and greet Batch of 2015-19!

G S Shruthi Akshaya

CSE

## VIGNESH

Hi there!

I'm Vignesh from Chennai.

I studied at the Sri Sankara Senior Secondary School, Chennai, and I've lived in Chennai all my life. I'm currently doing my 2nd year at MME. I can speak Tamil, English, Hindi and Kannada. NITT has been a brilliant place to live and study in, and I've grown a lot from my experiences. Being a hostelite has given me unforgettable memories, and I've made some amazing friends here. I'd love to be of assistance to my juniors, and you can feel free to contact me any time

My phone number is 900361405

and my email id is [vigneshsayeesundar@gmail.com](mailto:vigneshsayeesundar@gmail.com)

And lastly, congrats on making it here, and I wish you all the best!

## Y.S.S TEJA

Hey! I am Sri Sai Teja from Eluru, Andhra Pradesh. I am doing 2nd year in B.Tech Chemical engineering. I can speak Telugu and English fluently. Though I am in hostel for two years during 11th and 12<sup>th</sup>, on the day of admission I was actually worried how I cope up here but when i entered the college I met lots of people who are always ready to help in all the ways possibly they can and amazing staff who always lead you in proper way. NIT Trichy provides you a stage to showcase the talents you possess and get better. Overall, My first year was like a long vacation to me.

Email ID: [yssteja111@gmail.com](mailto:yssteja111@gmail.com)

Phone number: 9500318672

## SAI KIRAN

Hey!

My name is Saikiran Baytpalli, I'm in my second year in civil engineering. I am from Andhra Pradesh and I live in Chittoor district. I can speak Telugu, English, Tamil and Hindi

When I was about to come to college, I remember feeling scared that I was leaving home for the first time. That was when I got a call from someone who told me that he was my mentor. He was so sweet and patient; he listened to all my problems and cleared all my doubts. He was a huge source of support to me in a brand new place.

In a few months, not only my mentor, but even his friends became close to me. I loved the mentorship programme because it helped me find a home away from home.

As I settled here things became easier. Now, at the beginning of our second year, we are a family. This institute is a wonderful place in which to grow and learn, because it gives you every tool that you need to pursue anything that you want, while providing an environment that is just sheltered enough. I couldn't be more grateful to be here.

With this, I welcome the new additions to our family, and I hope that you will be able to realise all of your dreams in this college .Feel free to contact me
