

Study Trip to Big Temple Tanjore and Dharasuram

For the first-year architecture students, a one-day study tour to Big Temple Tanjore, belonging to Chola Architecture of 1000 AD, was done on 02.03.2024, Saturday and students were explained about the history, planning, construction and detailing of the Chola Architecture. The students were assigned to prepare and present a report along with the Photo/Video documentation. Students were taken to the temple at Dharasuram, which, again, belongs to Chola Architecture, built by King Raja Raja Chola, and asked to experience the temples' architecture and sculptures. The students showed great interest in appreciating the art and architecture. The study trip was organised by Prof G Sangeetha as a part of the course AR104 History of Architecture II and accompanied by the Head of the Department, Prof K Premkumar.
