ORIENTATION '18

Hey everyone!

This is Sri Aakash currently pursuing Architecture (2nd year). I am from Sivakasi, Tamil Nadu. I am fluent in English and Tamil. First of all, I would like to congratulate you for making it to NIT Trichy with your hard work and perseverance. Here in NIT Trichy, you can experience various culture here. We celebrate every culture's festival with whole enthusiasm and fun. More than academics, you can have an all-round experience with people from different walks of life. There are various clubs and competitions which provide you an opportunity to discover your passion and pursue it. Be it dance, art, singing, coding, robotics, sports, etc., you can find a place to do it here. Here, you can't say "it's boring" as you can spend all your spare time usefully. The love for your college, the love for your department, the love for your friends, getting into clubs and teams will definitely make the first year of your college life a wonderful experience for you, folks. Feel free to contact me through call or WhatsApp, any time if you face any difficulties or queries. Trust me, seniors will be your best guides and supporters!

Hey!

This is Harini, from the Architecture department (2nd year). I'm from Chennai, and I've done my schooling in Chennai as well. I'm fluent in Tamil and English. First, I'd like to congratulate you on joining this college. I'm sure you must have worked hard to get here, and trust me, it's worth it!

I remember I used to be apprehensive about joining this college at first, but now that I'm here, I definitely don't regret my decision. The best part about the college is the people. The students here hail from various parts of the country, and it's a wonderful experience to learn about different cultures. This college has so much to offer both academically and otherwise. There are many fests that happen all year, and also many clubs that you can join. This is a wonderful place for you to pursue any interest that you may have. If you have any doubts or queries at all, feel free to contact me. All the best, and I'm sure you'll have a great time at NIT Trichy!

Namaskaar, Vanakkam and Hello to all those who have chosen NITT to be their second home.

This is Suyash Sachin Damir, and I am a 2nd year Chemical Engineering student at NIT Trichy. I come from a very beautiful town Dehradun, Uttarakhand in North India. I am fluent in Hindi and English, with a good understanding of Tamil also, which I learnt in my first year. Well If I were given a choice to describe NITT in a single word, it will be: "Bliss". My first year, has been a perfect combination of academics enjoyment, clubs, fests, trips and most importantly, learning new things every second during my stay in the campus. Initially, when you come here, you may feel a little different and new, I would say, because you get this wonderful chance to interact with people from all over the country (believe me, this is just awesome) and abroad too. But as time passes by, you will start loving this place. The orientation program, will be extremely beneficial for you, as you will know how the college works, becoming more aware of how everything just fits in so perfectly. Being a part of AIESEC, SPIC MACAY and Festember, I have realized how this college provides a holistic environment for development in all aspects, whether it's your Communication skills, Management skills or Technical skills. The college is simply a perfect blend of Ecstasy and Academics, juxtaposed with flavors of knowledge and a huge network of friends.

Finally I would like to say, you have made your first step towards an amazingly exciting journey, and these 4 years are going to be the Golden Years of your Life. If you have any doubts, from admission procedure to what things to bring or maybe any other doubt, however small it is, do contact me for your queries. I understand how difficult it might be, as it is your first time to a completely new place. So feel free to ask me anything you want

Hey guys!

I'm Deepti, a 2nd year student of Chemical Engineering here at NITT. I'm from Chennai-which is where I live and where I went to school as well. I'm most comfortable conversing in English but I can talk in Tamil and Hindi too. The prospect of joining college after the long struggle of high school may seem exciting for some of you but may also be just as daunting, as it was for me. But what kept me going through the initial stages knew that I wasn't alone and that 800 fresher's are just as confused as me by this new environment. Trust me, by the end of orientation and the first month of college you will feel very comfortable with hostel and people around you. Region, language, interests and departments are no barrier-you will always find yourself amidst the company of the right people here in NITT. This college will also teach you a lot about yourself and will really help develop your personality. It's a wonderful environment to learn and have fun and make memories to last a lifetime. I can't believe my one year has already flown by so quickly! If you need any kind of assistance about your life at NITT please feel free to contact me at any time.

Psst! There are some great clubs and teams you can join in college for all/any interests you may have. Do make sure to check them out during orientation!

Hello Everyone,

Congratulations on making it into NIT Trichy.

I am Ayush Kishore ,from second year, Civil Engineering Department. I hail from Hajipur, Bihar and have been living in Trichy from past 7 years.I am quite fluent with English, Hindi and Tamil. NIT Trichy is an institute reputed for academics as well as extra-curricular activities.My first year of college life was filled with a lot of life long memories and amazing experiences. NITT has really good facilities and resources one needs for an easy living.This is a place where one can fulfill one's dream. Whichever field you want to progress in let it be academics, sports or cultural you will get several opportunities along with right guidance. Right from Orientation Week be ready to experience the cultural and technical extravaganzas like Festember, Aaveg, Pragyan and many more to record some amazing memories. This is a place where you will meet people from all over the country and experience a variety of cultures.

NITT has really helped me develop my over all personality and I hope even you won't have any regrets joining it. If you have any further queries regarding the hostel or anything related to campus, please feel free to ping me.

Hey!

Firstly, congrats on getting into one of the most prestigious institutes of India. I am Evlin Bosco, pursuing my second year in Civil Engineering. Hailing from Kerala, I'm fluent in English and Malayalam and can understand Tamil and Hindi to a fair extent. I'm a trained classical dancer and a confident public speaker. Having done all my schooling in Abu Dhabi, UAE, I wasn't confident with my decision to join the institute considering the extensive change in the living atmosphere. But today NITT has become my second home with friends who have become family. Fortunate to be a part of the AAVEG Organising Committee, NSS EXCOM and Fester Publicity Team I have developed as a team worker and a leader. Thanks to the faculty and exceptional support of my seniors, I have spent a year filled with experiences and memories to cherish a life time. At NITT everyone is given a plethora of opportunities to practice your personal interests as well as discover your area of expertise along with quality education. Be it fests, workshops, symposiums, club or academic activities you are always kept engaged which helps you use time efficiently. So fasten your seat belts as you are going to begin a bumpy exciting ride as you join college!

Please feel free to contact me at anytime.

CIVIL

Hey there!!

I am Kamalesh Khanna a second-year CSE student. I have lived in Chennai practically my whole life and my hometown is Nellore. I am quite zealous about writing, reading, current affairs and social causes and I am very passionate about being active outdoors in all kinds of sporting activities and revel taking part in quizzing and the numerous cultural events.

Foremost congratulations and a hearty welcome to all the students planning to join here. For some, this might be your dream institute and for some others, this might not have been your first choice but fret not for NITT is an exceptional place to be in and you will not regret coming here. This place grooms you to be an erudite citizen. The peer group you get here is from all over the country and even outside and the interaction with them and the competition and exposure levels are veritably unsurpassable and contribute in bringing all -round development. Academics wise NITT is second to none. This place is teeming with clubs, events, fests and workshops that you'll never know what hit you. This place provides you with ample freedom and means to discover your passion and work on it. There's also numerous platforms to express yourself and this place lets you be you.

This hot place has a lot of outlets to cool yourself and the fun you have here and the friends you get will make time whizz past for even I cannot get myself to believe that a year has flown by and the hostel you will stay in will soon become your second home. So don't be hesitant and participate in all the events and try out all the clubs and don't be afraid to make some mistakes and most importantly have fun.

So if you feel baffled or stranded in this process or have any misunderstandings don't hesitate to contact me. I can also speak Tamil, Telugu and Hindi if that helps.

Hey there!

This is Sandhya from Chennai, a second year student from the Computer Science and Engineering department.

I can speak English, Tamil and Hindi. If you are one of those who is disappointed after not getting an IIT like how I was, don't be! NITT is no less. It is a place always buzzing with activity with its plethora of clubs, fests and contests to keep you engaged, so much so that you are spoilt for choice. Come with an open mind, make the most of the never ending opportunities in every field you wish to pursue, and NITT won't fail to help you rise. The best part is the strong student bond. Go ahead and make friends, dare to try out new things and have a great life in college. Feel free to contact me if you're stuck or confused at any point.

Hi there!

I am Rohit Kumar, from second year, Electronics and Communication Engineering department. I am from Nalanda district, Bihar. I can speak English and Hindi fluently. First of all I would like to congratulate you to become a part of one of the most prestigious college of the country. It provides you a perfect platform of academic and extra-curricular activities. Here you will make a **million of memories**. It is the place where people hail from different regions and culture of the country and interact. Here you will have the opportunity to find out the hidden talents in yourself. Different fest, clubs and many inductions for different clubs give you ample opportunities to explore and learn many things. Choosing NITT is one of the best decisions I have made and I'm sure you will not regret it too!

If you have any doubts and queries, we are always here to help and guide you, feel free to contact me for any help.

Hi!

This is Agila, second year, Electronics and Communication Engineering department. I'm from Chennai. First of all, kudos to you people for getting into the NITT family. I can speak

Tamil, English and Telugu fluently. Needless to say, NIT Trichy tops in terms of facilities, job placements and fun too.

Since, I'm from Chennai adapting to Trichy wasn't really flinty. But the actual amazing fact was, my friends who were from different states, countries found it very easy to get along. If you are one of these kinds with no doubt, you can step inside. I still remember the feeling of excitement that I

had while stepping into such a great college. Even the thought of leaving home to stay in a hostel was intimidating.

Every day was a new day with new people. Later Club Inductions gets kicked off where a sense of purpose and belonging arose within us. I'm currently a part of IGNITTE, the teaching club of NITT. I'm also a part of NITTFEST and Festember too. The best thing about this institute is the way it allows us to tune the perfect balance between academics,

extra- and co-curricular. I love engaging myself in social activities, and I don't find a better platform for it than NITT.

The question which pops-up in many students is "What's my talent...?" .If you are one among them, don't worry .

Come aboard!

With this, I welcome the new sailors of NITT cruise and wish you all a great journey ahead!

Hey everyone!

First of all, congratulations for getting into one of the prestigious institutions in the country. This is Arun Prasanna currently doing my B.Tech from Electrical and Electronics Engineering Department. I did all my schooling at Neyveli and can speak Tamil and English, can understand Telugu, Malayalam and Hindi to an extent. I have been in the campus for almost a year now and I learnt a lot of things here apart from studies and the best thing about NITT is it lets your interests grow. At NITT we have fests like Aaveg, Festember, Pragyan, Nittfest where we can have lots of fun as well as learn various non-academical stuffs that'll help you develop a different skill set. I am currently a member of IGNITTE-Teaching club of NITT, Festember Workshops and Informals Team and previously was an Executive Committee Member of Students' Council 2017-18. I would be more than happy to help you guys anytime

Hey friends!

Congratulations on making it into NITT!

I'm Purnima Unnikrishnan, a student from second year electrical and electronics engineering department. I'm fluent in English, Hindi, Malayalam and Tamil. My transition from school to college life was smooth after meeting my Mentor.

My first year began with new friends, hostel life and the fun it had in store. Getting inducted into IGNITTE – the teaching club of NITT, going for tournaments as part of the Volleyball team, numerous college fests, and amidst all of these still working towards my academic goals, helped me manage time and handle responsibilities more effectively. To nurture and build your passions – from stargazing to car racing – NITT has a platform for everything. As you join clubs and teams here, you don't just make new friends with similar interests but also become part of families away from home.

I hope you guys enjoy the next four years of college.

Please feel free to approach me for any queries about life at NITT

Hi friends...

Heartiest congratulations for making to one of the dream colleges of the country, NIT Trichy. This is Kaustubh Juyal, a second year student from the department of Instrumentation and Control Engineering. My native roots are from Uttarakhand but I was brought up in the Brass City Moradabad, UP. I can fluently converse in English as well as in Hindi. I too had multiple doubts while coming to NITT like any other first year student - doubts regarding the culture, academics, professors, placements, new people, food, clubs, linguistic barriers, temperature, etc. But believe me friends, I cherished each and every moment of my one year journey I made of a lot of friends hailing from totally different cultures and enjoyed a lot with them. I also learnt some of the basics of Tamil language which was taught to me by my friends and it was really a nice and a new thing for me. NITT has everything for an all round development of an individual. It excels not only in academics but also has a very rich club culture. The faculty and seniors are supporting in every possible aspect. Our alumni network is extremely strong. You will be getting one of the best experiences of your life. Feel free to contact in case of any query. Hope to see you in NITT. Cheers!!!

Hello guys!

I am Shallypreethika Mani from Instrumentation and Control Engineering (2nd year). First of all, Congratulations to all the students who have made through a lot of hurdles to enter into Nit Trichy, The Pride of India . I am from Hosur, Tamil Nadu and have done my schooling in IIS Dammam, Saudi Arabia. I am fluent in Tamil, English and a considerable amount of Hindi. Since I have been living in Saudi for a long time, I thought a lot about how to adjust to a new environment and culture in India. But after entering NITT, Each and every day has become a learning step for me. I was part of Aaveg Organising committee and now Festember Organising committee. We have a wide range of technical clubs and Non-technical clubs. NITT also has a lot of fests happening every semester. NITT will give us the opportunity to explore what we like, what we love and what we want to the fullest of our expectations. Taking the right choice of clubs and knowing how to manage it with the academics will make us a successful person. At last, seniors are the people who play a major role in our college life as our best guides. Get to know a lot of seniors and have a fun filled with a lot of memories. As your close friend, you can contact me at any time for any query. Hope you have a wonderful journey and fun-filled memories. Cheers!!

mechanical

Hello everyone,

First of all congratulations on making it to NIT Trichy , one of the prestigious institutes in the country. I am Abinandhan, currently pursuing mechanical engineering (second year) .I was born in Chennai ,but brought up in Trichy. I am fluent in English and Tamil. I did my schooling in Trichy. Pursuing mechanical engineering was my dream and I preferred it over other highly demanded courses. Though I couldn't get mechanical engineering in any top IIT, NIT-T kept me away from any hard feelings. I had strong interest towards athletics and hence I tried and got into the college athletics team. NIT-T provides you lot of opportunities to explore your interest and show cast your talent. Starting from dance, music and movie making to robotics, coding and designing you have clubs for everything. In addition to this there are teams that manage and organize cultural and technical fests which you can be part of. You will never get bored since there will be lot of workshops, events coming up throughout the semester. The social life in this college is also good. You get to meet people from various states. So guys enough of 2 years of only academics. The next four years is going to be filled with fun, experience, entertainment and of course lot of memories. All the best guys! Feel free to contact me anytime .

Hey there!

First of all, congratulations on making into NITT. This is Anmol Panda, currently in 2nd year of Mechanical Engineering. I have lived in various parts of India but my roots lie in Odisha. I can speak English, Hindi, Odia and Tamil, to some extent. My interests are very varied, ranging from dance to automobiles and NIT has been the perfect platform to help me explore and refine my skills, while honing me as an individual. I am currently a part of the Dance Troupe and Spic Macay's NITT chapter. My first year has been a year to remember, and the experience was further enhanced by the fests like Festember, Aaveg, Pragyan and nittfest. I also found here an amazing set of friends who have made NITT my second home. I hope you feel the same too and I shall aid you in this process. Feel free to contact me at any time

Hey there!

First of all, kudos on making it to NIT Trichy. I am Rohan from Metallurgy and Materials Engineering department (second year). I hail from the city of pearls, Hyderabad and having done my entire education in the Deccan plateau; I am fluent in English, Hindi and Telugu and can understand Tamil to an extent. NIT Trichy is a doorway for plethora of experiences. Joining such an institution may pose a challenge of feeling unworthiness, but its okay we'll help you to get through such situations. My first-year experience was wonderful. You'll get to meet people from various backgrounds and almost every weekend you are going to be engaged with some or the other workshops etc. The clubs at NITT give you a chance to explore yourself; you can know your actual limits and even push them further. Fests like Aaveg, Festember, NITT Fest, Pragyan and the department symposiums help to reveal your innovative, non-academic excellence which you kept aside to assure yourself a seat in this prestigious college. NIT Trichy is an amazing college with a lot of opportunities to learn and explore. I am very fortunate to get a seat in this college in the special round, applying for special round has always been one of my best decisions and I am sure you

will not regret your stay at NITT. If you have any further queries feel free to contact me.

Hey!

This is Aashiqa Jawahira, from the department of Metallurgical and Materials Engineering (second year). I did my schooling at Abu Dhabi, UAE. I am fluent in Malayalam, Tamil and English. To tell about my first year at college, I would do anything to live those days again. You get to make a family within a short time, in an unknown place with its people. Sounds crazy yeah? That's what college life here does to you. I have met some of the most amazing people here, over the days, both seniors and batch mates. And I'd recommend you not to miss out on any of your Orientation programs. That's where bonding you would never imagine, happen, just like it did for me. NITT is a place for developing your passions and interests. Be it sports, academics, music, dance, technology itself or anything, opportunities never knock you down here. I am a part of Film Society and the Festember Social Responsibility team, and it has been great being in both. You'll have a lot of fun celebrating different festivals and the college fests too. And this whole lot of area with its roads, shops and cafeterias are all yours to explore! Since you are into college finally, it's up to you to live every moment so that when you look back after 4 years, NITT will be your abode of memories. Contact me anytime for any help, even if you feel homesick, I welcome you with the very best wishes and love, to NITT and the Meta family.

Hey Everyone!

This is Murali Krishna, second year, from the Department of Production Engineering. As a native of Salem, Tamil Nadu I did my entire schooling there. I'm fluent in English and Tamil, and can understand and speak Hindi to a little extent. Before anything, give yourselves a high five for making it into NITT. NITT made me see a different, enthusiastic version of myself from being the typical nerd back in school. First year was an absolute delight in my case as I managed to make friends, attend inductions and workshops, and all the while keeping in constant touch with my academics. Teams and clubs I'm a part of, namely the Music Troupe and SPIC MACAY, got me in

touch with people both inside and outside college. Also, fests such as PRAGYAN and FESTEMBER redefined the word "fun". To people who're still in a dilemma on whether you've chosen the right college, trust me, NITT is one amazing place to be. I will be happy to help you at any time, and please do not hesitate to contact me, by phone or WhatsApp.

Greetings!

First of all, kudos to all for getting into NITT. This is Meghna Saxena from second year, Production Engineering Department. I hail from Gorakhpur, a small city in Uttar Pradesh. I can speak Hindi, English fluently and can understand Tamil to an extent. One year in NITT has been a great experience with lots of memories to cherish lifetime.

Life here is certainly interesting and full of surprises. This institute provides us a perfect blend of academics and extra-curricular activities. All you need to do is, come out of your shell, participate in fests and contests, interact with people and explore without any fear of being judged. With a spectrum of clubs and events, both cultural and technical, you will be able to pursue whatever you are passionate about and find out your hidden talents. Along with an overwhelming range of students from all across the globe, you will be a part of our big family here.

So, I welcome you here to experience the best days of your life during this amazing journey. Feel free to contact me anytime in case of any problems or queries
